

TOLMAN ALASKAN SKIFF KIT PRICING AND SHIPPING INFORMATION

Tolman Alaskan Skiffs building plans for all three models.....	\$ 40.00
Standard Model 20' kit.....	\$ 3,200.00
Widebody Model 21'4" kit.....	\$ 3,500.00
Jumbo Model 24' kit.....	\$ 3,700.00

Kits include: six pre-scarfed bottom panels cut to shape, six (eight for Jumbo) pre-scarfed side panels **not** cut to shape, one bow stem cut to shape, six (eight for Jumbo) shelf pieces with angles and alignment joints cut, four transom pieces with angles cut, transom 2x8 LVL motor mount, two transom/shelf braces, three shelf alignment molds, one transom alignment wedge, two bottom alignment molds, one stringer template, one copy of Tolman Alaskan Skiffs by Renn Tolman.

Plywood is meranti aquatek BS6566.

Basic building jig is not included.

Stringers are not included in the basic kit although a stringer template is. Stringers are at least 17' long depending on the model. Prices begin at \$425.00 for stringers cut to shape. Check shipping charges before ordering due to length.

A crating charge of \$175.00 is added for orders shipped by truck.

Lead time is two weeks depending on work load.

Please call or email for shipping quotes.

Prices subject to change without notice.
